

Instructions for downloading ChemOffice/ChemDraw software

The subscription to ChemOffice (formerly ChemDraw) has been renewed for all WPI users. It is OK to forward this email to all WPI faculty, staff & students who might want to use the program.

Current users should have received an email on how to get the new version. But if not, or a new user, here's the directions:

1. Make back-up files of your existing ChemOffice or ChemDraw files
2. Go to <http://sitesubscription.cambridgesoft.com/>
3. Look for the WPI logo (way down the list, so pick "W" from the alphabet at top or do a "control F" search for "Worcester Polytechnic" to find it). Then read the directions there to proceed.

(here's what it looks like, these are NOT live links)

4. Find the 'Activation code' on clicking the 'Order History' tab within the download center portal." You should also receive an email from Perkin Elmer with the activation codes.
